Fiscal Year End Date: December 31																			
County: Snohomish																			
2. Summary	Project/Equipment/Grant Title: Water Rescue Manikins																		
Short Description (Limit 5 Lines): The Everett Fire Department is applying for grant funding that will allow the purchase of two manikins that are designed for water rescue training. We intend for these manikins to be available for all Snohomish County public safety agencies with a need to conduct freshwater or marine search and rescue training.																			
Project Budget: \$ 1750.32	Amount Requested: \$ 1750.32																		
3. Detailed Description: Explain the proposal/activity/project/training and how it benefits the North Region. How will you spend the money? What do you plan to do? When? Where? Include specific information regarding cost, dates, location, and activities, as well as general information regarding the content and significance of the proposal.																			
The jurisdictions of most Snohomish County public safety agencies include areas of fresh or salt water. Many of our residents and visitors either work or recreate on or in the County's waterways and public safety agencies are often requested to respond to incidents involving these waterways. Many rescue operations are conducted each year and, tragically, lives are lost each year. The skillset required for water-based search and rescue are unique and may involve elements in the air, onshore, or in the water. There is a critical need to conduct initial and ongoing training in the practices of water rescue. The Everett Fire Department (EFD) recognizes a need for realistic manikins for use in water rescue training evolutions. This need is not unique to the EFD but exists for all agencies with responsibility for protecting Snohomish County's waters.																			

Detailed Description – continued

The EFD is requesting grant funding for the purchase price (including applicable tax) of \$1,750.32 for two water rescue manikins. These manikins are configurable for surface and subsurface use and will be useful for swiftwater, marine, rescue swimmer, sUAS, and helicopter teams during their initial and ongoing training. The adult and an adolescent water rescue manikins that are purchased will be housed at the EFD but available for all regional agencies to use for related training. As a member of Snohomish County’s Special Operations Teams, the EFD has a demonstrated history of similar cooperation.

4. Summarize the Three Principal Objectives:

1. Increase likelihood of civilian survival of a water-based emergency.
2. Improve safety for Snohomish County responders through realistic, controlled training.
3. Provide adjuncts for realistic public safety messaging and demonstrations.

5. Agency Information: Describe the mission and/or goals of your organization. How does the proposed project relate to and enhance them? Why is the proposed funding request a priority at this time?

The mission statement of the Everett Fire Department is “We’re Here For You.” This statement is reflected in our internal and external relations. The acquisition of grant-funded water rescue manikins will allow us to better fulfill our mission statement for those residents and visitors to our area who recreate or work on the water. By using this equipment to improve the skills of Snohomish County providers, we are fulfilling our mission statement to the public. This funding request is a priority at this time because of our continued experience with water-based rescues and recoveries and the lack of access to manikins that facilitate realistic training scenarios. We also intend to use these manikins to provide realistic water safety demonstrations and education so that community risk is decreased.

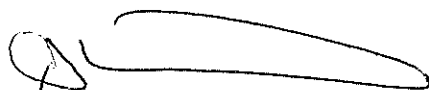

North Region EMS & Trauma Care Council

6. BUDGET: Expenditures and Income			
Description	North Region Grant	Matching/In-Kind *Include agencies providing support	Grand Total
Meetings/Events/Education (e.g. room rental, mileage, travel expenses)	[Type text]	[Type text]	[Type text]
Equipment (e.g. safety devices, manikins, educational supplies & materials)	\$1,750.32	[Type text]	\$1,750.32
Contractual Services (e.g. printing, postage, ads/media)	[Type text]	[Type text]	[Type text]
Other Expenses (describe)	[Type text]	[Type text]	[Type text]
Other Expenses (describe)	[Type text]	[Type text]	[Type text]
Grand Totals	\$1,750.32	[Type text]	\$1,750.32

7. Budget Narrative: Use this space to provide additional information about your budget and expenses. Is this a continuing project? If so, how will it be funded in the future?

This is a one-time purchase and we expect the manikins will have a useful life of 10 years.

8. Signature: The signatory declares that she/he is an authorized official of the applicant and is authorized to make this application. She/he will assure the funds received as a result of this application are used only for the purposes set forth herein.
